SUBJECT INDEX

Acetone
The enthalpic interaction parameters of NaCl, KCl and KI with acetone in water at 303.15 and 308.15 K 171
Activated carbon
The effect of temperature on the desorption of gold cyanide from activated carbon 99
Alkane
A study of nitrile group interactions in alkane solutions 143
Aragonite
Variations de la teneur en eau des coraux lors de la transformation aragonite → calcite 255
Atmosphere
Preparation and thermal decomposition of solid state cobalt, nickel, copper and zinc chelates of ethylenediaminetetraacetic acid 63

Benzene
The thermodynamics of the binding of benzene to β-cyclodextrin in aqueous solution 183
Binary system
Phase equilibria in the systems Fe_2O_3–WO_3 and $FeVO_4$–WO_3 115
Bomb calorimetry
The enthalpies of combustion and formation of *cis*- and *trans*-1-methyl-1,2-dicyclopropylcyclopropane 139

Calcite
Variations de la teneur en eau des coraux lors de la transformation aragonite → calcite 255
Calibration
Temperature calibration on cooling using liquid crystal phase transitions 129
Calorimeter
The thermodynamics of the binding of benzene to β-cyclodextrin in aqueous solution 183
Carbon
The effect of temperature on the desorption of gold cyanide from activated carbon 99
Chelate
Preparation and thermal decomposition of solid state cobalt, nickel, copper and zinc chelates of ethylenediaminetetraacetic acid 63
Clathrate
Thermal decomposition reactions of nickel(II) complexes under quasi-equilibrium conditions. Part 3. The study of the relations between the thermal, spectral and structural properties of the Werner clathrates $[Ni(4\text{-}Mepy)_4(NCS)_2] \cdot 2G$ (where G represents naphthalene derivatives) 41
Cobalt compound
Preparation and thermal decomposition of solid state cobalt, nickel, copper and zinc chelates of ethylenediaminetetraacetic acid 63
Structural characterisation of bis(suberate) cobalt(II) 1.5 hydrate and a thermal analysis study of suberic acid and bis(suberate) cobalt(II) 1.5 hydrate 195
The thermal, spectral and magnetic studies of oxamic acid compounds of cobalt(II), nickel(II) and copper(II) ions 199
Compaction
The kinetics of the compaction at sintering of $MnFe_2O_4$ compressed pellets 85
Compensation
The compensation effect in the non-isothermal degradation of polychloroprene rubber 221
Co-ordination
Structural characterisation of bis(suberate) cobalt(II) 1.5 hydrate and a thermal analysis study of suberic acid and bis(suberate) cobalt(II) 1.5 hydrate 195
Co-ordination compound
On the thermal stability and non-isothermal decomposition kinetics of some coordination compounds of cobalt, nickel and copper with a β-dicarbonylic compound and 4-benzoylpyridine or 4,4'-dipyridyl as ligands 237
Copper compound
Preparation and thermal decomposition of

solid state cobalt, nickel, copper and zinc chelates of ethylenediaminetetraacetic acid 63
The thermal, spectral and magnetic studies of oxamic acid compounds of cobalt(II), nickel(II) and copper(II) ions 199
Coral
Variations de la teneur en eau des coraux lors de la transformation aragonite → calcite 255
Cyclodextrin
The thermodynamics of the binding of benzene to β-cyclodextrin in aqueous solution 183

Decomposition
The effect of the reaction heat on kinetic analysis by TG under a rising temperature program. Part 3 1
Thermal decomposition reactions of nickel(II) complexes under quasi-equilibrium conditions. Part 3. The study of the relations between the thermal, spectral and structural properties of the Werner clathrates $[Ni(4\text{-}Mepy)_4(NCS)_2] \cdot 2G$ (where G represents naphthalene derivatives) 41
The preparation and thermal decomposition of solid state compounds of 4-dimethylaminobenzylidenepyruvate and trivalent lanthanides and yttrium 53
Preparation and thermal decomposition of solid state cobalt, nickel, copper and zinc chelates of ethylenediaminetetraacetic acid 63
Synthesis and thermal decomposition of some rare earth(III) dimethylammonium sulphate crystallohydrates. Part 1. Results of investigations of $(CH_3)_2NH_2Ln(SO_4)_2 \cdot H_2O$ (where Ln is La–Gd) 73
Synthesis and thermal decomposition of some rare earth(III) dimethylammonium sulphate crystallohydrates. Part 2. Results of investigations of $[(CH_3)_2NH_2]_3Ln(SO_4)_3 \cdot 3H_2O$ 79
Thermogravimetric study of the degradation of poly(acenaphthylene) 123
Structural characterisation of bis(suberate) cobalt(II) 1.5 hydrate and a thermal analysis study of suberic acid and bis(suberate) cobalt(II) 1.5 hydrate 195
The thermal, spectral and magnetic studies of oxamic acid compounds of cobalt(II), nickel(II) and copper(II) ions 199
Carbodithioato derivatives of weak nitrogenous nucleophiles. Part 4. Mass spectra and thermal decomposition kinetics of Ni(II) *N*-carbodithioates with substituted ureas, carbamic esters and sulfonamides 263
The thermal decomposition of azide polymers containing ferruginous compounds 275
Degree of conversion
The effect of the reaction heat on kinetic analysis by TG under a rising temperature program. Part 3 1
Desorption
The effect of temperature on the desorption of gold cyanide from activated carbon 99
DISQUAC
A study of nitrile group interactions in alkane solutions 143
DMBP
The preparation and thermal decomposition of solid state compounds of 4-dimethylaminobenzylidenepyruvate and trivalent lanthanides and yttrium 53
Double salt
Synthesis and thermal decomposition of some rare earth(III) dimethylammonium sulphate crystallohydrates. Part 1. Results of investigations of $(CH_3)_2NH_2Ln(SO_4)_2 \cdot H_2O$ (where Ln is La–Gd) 73
Synthesis and thermal decomposition of some rare earth(III) dimethylammonium sulphate crystallohydrates. Part 2. Results of investigations of $[(CH_3)_2NH_2]_3Ln(SO_4)_3 \cdot 3H_2O$ 79
DSC
Temperature calibration on cooling using liquid crystal phase transitions 129
The thermal decomposition of azide polymers containing ferruginous compounds 275
DTA
Determination of kinetic parameters for nucleation and growth from DTA data 23
The preparation and thermal decomposition of solid state compounds of 4-dimethylaminobenzylidenepyruvate and trivalent lanthanides and yttrium 53
Preparation and thermal decomposition of solid state cobalt, nickel, copper and zinc chelates of ethylenediaminetetraacetic acid 63
Synthesis and thermal decomposition of some rare earth(III) dimethylammonium sulphate crystallohydrates. Part 1. Results of investigations of $(CH_3)_2NH_2Ln(SO_4)_2 \cdot H_2O$ (where Ln is La–Gd) 73
Synthesis and thermal decomposition of some rare earth(III) dimethylammonium sulphate crystallohydrates. Part 2. Results of investigations of $[(CH_3)_2NH_2]_3Ln(SO_4)_3 \cdot 3H_2O$ 79
Phase equilibria in the systems Fe_2O_3–WO_3 and $FeVO_4$–WO_3 115

Structural characterisation of bis(suberate) cobalt(II) 1.5 hydrate and a thermal analysis study of suberic acid and bis(suberate) cobalt(II) 1.5 hydrate 195
The thermal, spectral and magnetic studies of oxamic acid compounds of cobalt(II), nickel(II) and copper(II) ions 199
Preparation, structural and thermal studies of 1,1-cyclobutanedicarboxylic acid complexes of cobalt, nickel and copper 205
The compensation effect in the non-isothermal degradation of polychloroprene rubber 221
Non-isothermal degradation kinetics of glass-reinforced epoxy resin 229
On the thermal stability and non-isothermal decomposition kinetics of some coordination compounds of cobalt, nickel and copper with a β-dicarbonylic compound and 4-benzoylpyridine or 4,4'-dipyridyl as ligands 237

DTG
Thermal decomposition reactions of nickel(II) complexes under quasi-equilibrium conditions. Part 3. The study of the relations between the thermal, spectral and structural properties of the Werner clathrates $[Ni(4\text{-}Mepy)_4(NCS)_2] \cdot 2G$ (where G represents naphthalene derivatives) 41
The preparation and thermal decomposition of solid state compounds of 4-dimethylaminobenzylidenepyruvate and trivalent lanthanides and yttrium 53
Preparation and thermal decomposition of solid state cobalt, nickel, copper and zinc chelates of ethylenediaminetetraacetic acid 63
Synthesis and thermal decomposition of some rare earth(III) dimethylammonium sulphate crystallohydrates. Part 1. Results of investigations of $(CH_3)_2NH_2Ln(SO_4)_2 \cdot H_2O$ (where Ln is La–Gd) 73
Synthesis and thermal decomposition of some rare earth(III) dimethylammonium sulphate crystallohydrates. Part 2. Results of investigations of $[(CH_3)_2NH_2]_3Ln(SO_4)_3 \cdot 3H_2O$ 79
The compensation effect in the non-isothermal degradation of polychloroprene rubber 221
Non-isothermal degradation kinetics of glass-reinforced epoxy resin 229
On the thermal stability and non-isothermal decomposition kinetics of some coordination compounds of cobalt, nickel and copper with a β-dicarbonylic compound and 4-benzoylpyridine or 4,4'-dipyridyl as ligands 237
Carbodithioato derivatives of weak nitrogenous nucleophiles. Part 4. Mass spectra and thermal decomposition kinetics of Ni(II) *N*-carbodithioates with substituted ureas, carbamic esters and sulfonamides 263

EDTA
Preparation and thermal decomposition of solid state cobalt, nickel, copper and zinc chelates of ethylenediaminetetraacetic acid 63

Electrolyte
The enthalpic interaction parameters of NaCl, KCl and KI with acetone in water at 303.15 and 308.15 K 171

Epoxy
Non-isothermal degradation kinetics of glass-reinforced epoxy resin 229

Excess molar enthalpy
A study of nitrile group interactions in alkane solutions 143

Ferrate
The kinetics of the compaction at sintering of $MnFe_2O_4$ compressed pellets 85

Ferruginous
The thermal decomposition of azide polymers containing ferruginous compounds 275

Fossil
Variations de la teneur en eau des coraux lors de la transformation aragonite → calcite 255

Gold cyanide
The effect of temperature on the desorption of gold cyanide from activated carbon 99

Heat of combustion
The enthalpies of combustion and formation of *cis*- and *trans*-1-methyl-1,2-dicyclopropylcyclopropane 139

Heat of formation
The enthalpies of combustion and formation of *cis*- and *trans*-1-methyl-1,2-dicyclopropylcyclopropane 139

Heat of reaction
The effect of the reaction heat on kinetic analysis by TG under a rising temperature program. Part 3 1

Heat of solution
The enthalpic interaction parameters of NaCl, KCl and KI with acetone in water at 303.15 and 308.15 K 171

Heat of vaporization
The enthalpies of combustion and formation of *cis*- and *trans*-1-methyl-1,2-dicyclopropylcyclopropane 139

Hydrate
Structural characterisation of bis(suberate) cobalt(II) 1.5 hydrate and a thermal analysis study of suberic acid and bis(suberate) cobalt(II) 1.5 hydrate 195

IRS
Structural characterisation of bis(suberate) cobalt(II) 1.5 hydrate and a thermal analysis study of suberic acid and bis(suberate) cobalt(II) 1.5 hydrate 195
The thermal, spectral and magnetic studies of oxamic acid compounds of cobalt(II), nickel(II) and copper(II) ions 199
Variations de la teneur en eau des coraux lors de la transformation aragonite→calcite 255

Isomer
The enthalpies of combustion and formation of *cis*- and *trans*-1-methyl-1,2-dicyclopropylcyclopropane 139

Kinetics
The effect of the reaction heat on kinetic analysis by TG under a rising temperature program. Part 3 1
New equations for kinetic analysis of non-isothermal reactions 13
Determination of kinetic parameters for nucleation and growth from DTA data 23
The kinetics of the compaction at sintering of $MnFe_2O_4$ compressed pellets 85
Thermogravimetric study of the degradation of poly(acenaphthylene) 123
An iterative integral method to evaluate the classical non-isothermal kinetic parameters from a single curve obtained at quasi-constant heating rate using integration over small intervals of variables and the least-squares method. Part 2 211
The compensation effect in the non-isothermal degradation of polychloroprene rubber 221
Non-isothermal degradation kinetics of glass-reinforced epoxy resin 229
On the thermal stability and non-isothermal decomposition kinetics of some coordination compounds of cobalt, nickel and copper with a β-dicarbonylic compound and 4-benzoylpyridine or 4,4'-dipyridyl as ligands 237
Carbodithioato derivatives of weak nitrogenous nucleophiles. Part 4. Mass spectra and thermal decomposition kinetics of Ni(II) *N*-carbodithioates with substituted ureas, carbamic esters and sulfonamides 263

Lanthanon
The preparation and thermal decomposition of solid state compounds of 4-dimethylaminobenzylidenepyruvate and trivalent lanthanides and yttrium 53
Synthesis and thermal decomposition of some rare earth(III) dimethylammonium sulphate crystallohydrates. Part 1. Results of investigations of $(CH_3)_2NH_2Ln(SO_4)_2 \cdot H_2O$ (where Ln is La–Gd) 73
Synthesis and thermal decomposition of some rare earth(III) dimethylammonium sulphate crystallohydrates. Part 2. Results of investigations of $[(CH_3)_2NH_2]_3Ln(SO_4)_3 \cdot 3H_2O$ 79

Lanthanon compound
The preparation and thermal decomposition of solid state compounds of 4-dimethylaminobenzylidenepyruvate and trivalent lanthanides and yttrium 53

Ligand
On the thermal stability and non-isothermal decomposition kinetics of some coordination compounds of cobalt, nickel and copper with a β-dicarbonylic compound and 4-benzoylpyridine or 4,4'-dipyridyl as ligands 237

Liquid crystal
Temperature calibration on cooling using liquid crystal phase transitions 129

LLE
A study of nitrile group interactions in alkane solutions 143

Manganese ferrate
The kinetics of the compaction at sintering of $MnFe_2O_4$ compressed pellets 85

Model
The effect of the reaction heat on kinetic analysis by TG under a rising temperature program. Part 3 1
Determination of kinetic parameters for nucleation and growth from DTA data 23
The effect of temperature on the desorption of gold cyanide from activated carbon 99
A study of nitrile group interactions in alkane solutions 143
Molecular simulation of the enthalpies of argon (1) + methane (2) at different temperatures and pressures 163
An iterative integral method to evaluate the classical non-isothermal kinetic parameters from a single curve obtained at quasi-constant heating rate using integration over small intervals of variables and the least-squares method. Part 2 211

Nickel compound
Preparation and thermal decomposition of solid state cobalt, nickel, copper and zinc chelates of ethylenediaminetetraacetic acid 63
The thermal, spectral and magnetic studies of oxamic acid compounds of cobalt(II), nickel(II) and copper(II) ions 199
Non-electrolyte
The enthalpic interaction parameters of NaCl, KCl and KI with acetone in water at 303.15 and 308.15 K 171
Non-isothermal
New equations for kinetic analysis of non-isothermal reactions 13
Determination of kinetic parameters for nucleation and growth from DTA data 23
An iterative integral method to evaluate the classical non-isothermal kinetic parameters from a single curve obtained at quasi-constant heating rate using integration over small intervals of variables and the least-squares method. Part 2 211
The compensation effect in the non-isothermal degradation of polychloroprene rubber 221
Non-isothermal degradation kinetics of glass-reinforced epoxy resin 229
On the thermal stability and non-isothermal decomposition kinetics of some coordination compounds of cobalt, nickel and copper with a β-dicarbonylic compound and 4-benzoylpyridine or 4,4′-dipyridyl as ligands 237
Nucleation
Determination of kinetic parameters for nucleation and growth from DTA data 23
Nucleophile
Carbodithioato derivatives of weak nitrogenous nucleophiles. Part 4. Mass spectra and thermal decomposition kinetics of Ni(II) *N*-carbodithioates with substituted ureas, carbamic esters and sulfonamides 263

Oxamic acid
The thermal, spectral and magnetic studies of oxamic acid compounds of cobalt(II), nickel(II) and copper(II) ions 199

PACE
Thermogravimetric study of the degradation of poly(acenaphthylene) 123
Phase
Phase equilibria in the systems Fe_2O_3–WO_3 and $FeVO_4$–WO_3 115
Phase equilibrium
Phase equilibria in the systems Fe_2O_3–WO_3 and $FeVO_4$–WO_3 115
Molecular simulation of the enthalpies of argon (1) + methane (2) at different temperatures and pressures 163
Phase transition
Temperature calibration on cooling using liquid crystal phase transitions 129
Polychloroprene
The compensation effect in the non-isothermal degradation of polychloroprene rubber 221
Polymer
Thermogravimetric study of the degradation of poly(acenaphthylene) 123
The thermal decomposition of azide polymers containing ferruginous compounds 275
Potassium chloride
The enthalpic interaction parameters of NaCl, KCl and KI with acetone in water at 303.15 and 308.15 K 171
Potassium iodide
The enthalpic interaction parameters of NaCl, KCl and KI with acetone in water at 303.15 and 308.15 K 171
Precision
Temperature calibration on cooling using liquid crystal phase transitions 129
Program
Determination of kinetic parameters for nucleation and growth from DTA data 23

Quasiequilibrium
Thermal decomposition reactions of nickel(II) complexes under quasi-equilibrium conditions. Part 3. The study of the relations between the thermal, spectral and structural properties of the Werner clathrates $[Ni(4\text{-}Mepy)_4(NCS)_2] \cdot 2G$ (where G represents naphthalene derivatives) 41

Resin
Non-isothermal degradation kinetics of glass-reinforced epoxy resin 229
Rubber
The compensation effect in the non-isothermal degradation of polychloroprene rubber 221

Simulation
Molecular simulation of the enthalpies of argon (1) + methane (2) at different temperatures and pressures 163
Sintering
The kinetics of the compaction at sintering of $MnFe_2O_4$ compressed pellets 85
Sodium chloride
The enthalpic interaction parameters of NaCl, KCl and KI with acetone in water at 303.15 and 308.15 K 171

Solution
The thermodynamics of the binding of benzene to β-cyclodextrin in aqueous solution 183
Solvent
The enthalpic interaction parameters of NaCl, KCl and KI with acetone in water at 303.15 and 308.15 K 171
Specific heat
A study of nitrile group interactions in alkane solutions 143
Spectrophotometry
Structural characterisation of bis(suberate) cobalt(II) 1.5 hydrate and a thermal analysis study of suberic acid and bis(suberate) cobalt(II) 1.5 hydrate 195
The thermal, spectral and magnetic studies of oxamic acid compounds of cobalt(II), nickel(II) and copper(II) ions 199
Suberate
Structural characterisation of bis(suberate) cobalt(II) 1.5 hydrate and a thermal analysis study of suberic acid and bis(suberate) cobalt(II) 1.5 hydrate 195
Sulphonamide
Carbodithioato derivatives of weak nitrogenous nucleophiles. Part 4. Mass spectra and thermal decomposition kinetics of Ni(II) *N*-carbodithioates with substituted ureas, carbamic esters and sulfonamides 263

Temperature program
The effect of the reaction heat on kinetic analysis by TG under a rising temperature program. Part 3 1
TG
The effect of the reaction heat on kinetic analysis by TG under a rising temperature program. Part 3 1
New equations for kinetic analysis of non-isothermal reactions 13
Thermal decomposition reactions of nickel(II) complexes under quasi-equilibrium conditions. Part 3. The study of the relations between the thermal, spectral and structural properties of the Werner clathrates $[Ni(4\text{-}Mepy)_4(NCS)_2] \cdot 2G$ (where G represents naphthalene derivatives) 41
The preparation and thermal decomposition of solid state compounds of 4-dimethylaminobenzylidenepyruvate and trivalent lanthanides and yttrium 53
Preparation and thermal decomposition of solid state cobalt, nickel, copper and zinc chelates of ethylenediaminetetraacetic acid 63
Synthesis and thermal decomposition of some rare earth(III) dimethylammonium sulphate crystallohydrates. Part 1. Results of investigations of $(CH_3)_2NH_2Ln(SO_4)_2 \cdot H_2O$ (where Ln is La–Gd) 73
Synthesis and thermal decomposition of some rare earth(III) dimethylammonium sulphate crystallohydrates. Part 2. Results of investigations of $[(CH_3)_2NH_2]_3Ln(SO_4)_3 \cdot 3H_2O$ 79
Thermogravimetric study of the degradation of poly(acenaphthylene) 123
Structural characterisation of bis(suberate) cobalt(II) 1.5 hydrate and a thermal analysis study of suberic acid and bis(suberate) cobalt(II) 1.5 hydrate 195
The thermal, spectral and magnetic studies of oxamic acid compounds of cobalt(II), nickel(II) and copper(II) ions 199
Preparation, structural and thermal studies of 1,1-cyclobutanedicarboxylic acid complexes of cobalt, nickel and copper 205
The compensation effect in the non-isothermal degradation of polychloroprene rubber 221
Non-isothermal degradation kinetics of glass-reinforced epoxy resin 229
On the thermal stability and non-isothermal decomposition kinetics of some coordination compounds of cobalt, nickel and copper with a β-dicarbonylic compound and 4-benzoylpyridine or 4,4'-dipyridyl as ligands 237
Variations de la teneur en eau des coraux lors de la transformation aragonite→calcite 255
Carbodithioato derivatives of weak nitrogenous nucleophiles. Part 4. Mass spectra and thermal decomposition kinetics of Ni(II) *N*-carbodithioates with substituted ureas, carbamic esters and sulfonamides 263
The thermal decomposition of azide polymers containing ferruginous compounds 275
TGA
The thermal decomposition of azide polymers containing ferruginous compounds 275
Thermodynamics
A study of nitrile group interactions in alkane solutions 143
The thermodynamics of the binding of benzene to β-cyclodextrin in aqueous solution 183
Transition metal compound
Phase equilibria in the systems Fe_2O_3–WO_3 and $FeVO_4$–WO_3 115
Preparation, structural and thermal studies of 1,1-cyclobutanedicarboxylic acid complexes of cobalt, nickel and copper 205

VLE
A study of nitrile group interactions in alkane solutions 143

Water
The enthalpic interaction parameters of NaCl, KCl and KI with acetone in water at 303.15 and 308.15 K 171
Variations de la teneur en eau des coraux lors de la transformation aragonite→calcite 255

Werner clathrate
Thermal decomposition reactions of nickel(II) complexes under quasi-equilibrium conditions. Part 3. The study of the relations between the thermal, spectral and structural properties of the Werner clathrates $[Ni(4\text{-}Mepy)_4(NCS)_2] \cdot 2G$ (where G represents naphthalene derivatives) 41

XRD
Variations de la teneur en eau des coraux lors de la transformation aragonite→calcite 255

XRPD
The preparation and thermal decomposition of solid state compounds of 4-dimethylaminobenzylidenepyruvate and trivalent lanthanides and yttrium 53
Phase equilibria in the systems Fe_2O_3–WO_3 and $FeVO_4$–WO_3 115

Zinc compound
Preparation and thermal decomposition of solid state cobalt, nickel, copper and zinc chelates of ethylenediaminetetraacetic acid 63
